CHAT SESSION: ONE-PAGER EVOLUTION

THE STORY

Built a comprehensive one-pager tool that creates perfect 2-page PDFs from any content. **Evolved** it through Study Gym using Scientific Method. **Result:** Visual storytelling tool for crystallized knowledge.

KEY TOOLS

OnePager - Multi-format content → 2-page PDF

- Markdown, code, JSON, text, dictionaries
- Visual "at a glance" design
- Image placeholder for visual storytelling

Study Gym - Scientific learning system

- Hypothesis formation & testing
- Observation recording
- Confidence-based conclusions

Commands:

- `/one-pager` - Create from any content
- `/one-pager-chat` - Create from chat
- `/study` - Run learning sessions

QUICK USAGE

```
from waft import OnePager
OnePager.from_markdown("# Title\nContent", title="Doc").generate()
```

PHILOSOPHY

> "Physical constellation of crystallized knowledge inside spacetime through the refraction of light"

Output: `workefforts/onepagers/[title][date].pdf`

Format: 2 pages, printer-friendly, binder-ready
