CHAT SESSION: BANNED WORDS & EVOLUTIONARY FEATURES

THE STORY

Discovered we were only using ~30% of WAFT's evolutionary features. **Created** banned words system. **Result:** Complete feature inventory and word management.

KEY ACCOMPLISHMENTS

- Banned Words System**
 - `BannedWordsSystem` class for word restrictions
 - Removed "manifesto" → "report" (renamed `ManifestoGenerator` → `SessionReportGenerator`)
 - Global command: `waft-one-pager-chat`

Evolutionary Features Inventory

- Currently using: ~30% (SPAWN, genome IDs, lineage, fitness, names)
- Missing: MUTATE, GYM_EVAL, DEATH, SURVIVAL, Conjugate, selection mechanisms, mutation types
- Created: `ONEPAGERCOMPLETEEVOLUTIONARYFEATURES.md`

TOOLS CREATED

BannedWordsSystem - Check, scan, replace banned words

SessionReportGenerator - Scientific reports, phylogenetic trees

GLOBAL COMMAND

`waft-one-pager-chat`

- Creates one-pager from chat session. Works from anywhere.

PHILOSOPHY

> "Physical constellation of crystallized knowledge inside spacetime through the refraction of light"

Output: `workefforts/onepagers/[title][date].pdf`

Format: 2 pages, printer-friendly, binder-ready

NOTES
