

PDF Formatting Improvements Test

Test PDF Formatting Improvements

List Spacing Test

This paragraph comes before a list.

- First item with **bold text** and *italic text*
- Second item with nested emphasis: ***bold and italic text***
- Third item that is very long and should wrap properly across multiple lines without breaking the layout or extending beyond margins

Nested Lists

- Level 1 item
- Level 2 item with proper indentation
 - Level 3 item with even more indentation
- Another level 2 item

Code Block Test

Here's some inline code: `print("hello")`

And here's a multi-line code block:

```
def example_function():  
    # This should preserve indentation  
    if True:  
        print("Indented code")  
        return "success"
```

Header Spacing Test

This paragraph should have proper spacing after the header above.

Another paragraph to test flow.

Horizontal Rule Test

Content before the rule.

Content after the rule.

Link Test

Check out [this link](#) and [this visited link](#).

Blockquote Test

*This is a blockquote with proper styling.
It should have a left border and background.
Multiple lines should work correctly.*

Table Test

Header 1	Header 2	Header 3
Cell 1	Cell 2	Cell 3
Cell 4	Cell 5	Cell 6
