

THE QUANTUM INCIDENT: A TELEPORT MASSIVE ADVENTURE

THE QUANTUM INCIDENT

A Teleport Massive Adventure

Level: Epic

Setting: Site-Delta-9, TELEPORT MASSIVE Facility

Theme: Science Fiction, Quantum Physics, Reality Breaking

Background

The players are researchers at TELEPORT MASSIVE's Site-Delta-9 facility. During a routine transfer operation, something goes wrong. Or does it?

The Incident

Transfer operation TM-TX-8472 begins normally. But at 02:16:18 PST, the quantum field fluctuates in an impossible way. The subject—Sarah Chen—doesn't just teleport. She **multiplies**.

The Challenge

Sarah now exists in 17 different locations simultaneously. Each instance is real. Each instance is conscious. Each instance is her. The players must:

- Understand what happened
- Determine if it's safe
- Decide what to do next
- Face the implications

Key NPCs

Dr. Elena Vasquez

Role: Chief Science Officer

Personality: Brilliant, curious, determined

Goal: Understand and master quantum consciousness distribution

Sarah Chen (Multiple Instances)

Role: Test Subject / Quantum Anomaly

Personality: Confused, curious, adapting

Goal: Understand her new existence

Resolution

The players must decide: shut down the technology, or embrace the new reality? Their choice will determine the future of TELEPORT MASSIVE and humanity itself.

Hook: "We didn't create a teleportation device. We created a god-making machine."
