

NEUMORPHIC DESIGN CHECKLIST

DEMONSTRATING NEUMORPHIC DESIGN PATTERNS WITH UMBRA SHADOWS.

Neumorphic Design

DESIGN PRINCIPLES

VISUAL DEPTH

Use subtle shadows to create elevation.....
Check
Combine light and dark gradients Check
Maintain soft, rounded edges Check
Keep contrast minimal for soft appearance.....
Check

IMPLEMENTATION

UMBRA INTEGRATION

Import umbra package Check
Define shadow paths with closed shapes.....
Check
Adjust shadow-radius for depth Check
Set shadow-stops for gradient colors .. Check
Use correction for smooth corners Check

Neumorphism

A design trend that uses soft shadows to create the illusion of depth in flat interfaces.
