

Mindspace Review: 2026-01-19 22:27

Moment

- Timestamp: 2026-01-19 22:27 (local)
- Context: Teleport Massive founding team documentation cleanup
- Objective: Ensure 2026-only authenticity (no future knowledge)

Current State

- Main artifacts updated to remove future references
- Founding team Typst document now reads like a 2026-era corporate report
- JSON data and generator script aligned with 2026-only perspective
- Continuation prompt revised to emphasize “OG founding story” constraints

Thoughts

- Authenticity depends on removing subtle future knowledge, not adding detail
- Forward-looking language is fine if it stays plausible to 2026
- “Reality creation”/“eternal return” framing was too retrospective

Context

- Project: Teleport Massive lore (founding team documentation)
- Key files:

- `_work_efforts/WE-260119-ejtx_teleport_massive_official_guide_to_scint_traversal/TELEPORT_MASSIVE_F
OUNDING_TEAM_2026.typ`

- `_work_efforts/WE-260119-ejtx_teleport_massive_official_guide_to_scint_traversal/TELEPORT_MASSIVE_F
OUNDING_TEAM_2026.json`

- `_work_efforts/WE-260119-ejtx_teleport_massive_official_guide_to_scint_traversal/generate_founding_team

PT.md`

Decisions

- Remove all references to 2111, Scint Traversal, and 86-year timeline

- Reframe LHC connection as scientific foundation, not cosmology
- Adjust quotes and glossary to 2026-only knowledge
- Keep future-looking language grounded in 2026 plausibility

Work in Progress

- All cleanup tasks completed
- No pending edits in the founding team documents

Questions

- Should we formalize a “2026-only perspective” style guide for founding-era docs?
- How much LHC mythos is acceptable in 2026-facing materials?

Next Steps

- (Optional) Regenerate the PDF to reflect the new Typst text
- (Optional) Add a brief “era authenticity” checklist to the continuation prompt

Reflections

- Multiple sweeps are necessary to fully remove future-knowledge leakage
- Aligning data + generator + doc keeps the narrative consistent
