Purpose: Evolving PDF formatting ideas

PDF Formatting Evolution Ideas

Common First-Time Mistakes

1. List Spacing Issues

Problem: Lists often have inconsistent vertical rhythm

Ideas:

- Add consistent margin-top and margin-bottom
- Ensure li items have proper spacing
- Nested lists should have increased left padding

2. Code Block Line Breaks

Problem: Code blocks don't preserve line breaks properly

Ideas:

- Add `white-space: pre-wrap` to pre blocks
- Ensure code inside pre preserves formatting

3. Blockquote Styling

Problem: Blockquotes aren't styled

Ideas:

- Add blockquote styling with left border
- Use subtle background color
- Indent from left margin

This is a blockquote example to test formatting.

4. Link Styling

Problem: Links aren't visually distinct

Ideas:

- Add underline or color to links

- Use accent color for links
- Make links stand out but not distract

Here's a [link to example](#) in text.

5. Nested Lists

Problem: Nested lists don't have proper indentation

Ideas:

- Increase padding for each nesting level
- Use different spacing
- First level
- Second level
- Third level
- Fourth level

6. Code Examples

Inline code: `const x = 42;`

Code block:

```
def test():  
    return True
```

Summary

These are common formatting issues that anyone would make on their first go around.
