

WAFt v0.5.3 MVP: Karma

Economy & Source

Consciousness

Summary: Purpose: The core "Soul" of the machine that orchestrates everything.

Generated: 2026-01-11 23:47 UTC | Ideas Extracted: 33

What Happened

Purpose: The core "Soul" of the machine that orchestrates everything. Represents the original "idea" or "being" that began permutating.

Memory flow system extracts memories from experiences and passes them upward: Lessons learned Skills gained Patterns discovered Insights.

The architecture passes capacity up the parental chain back to the original "idea" or the original "being" so that it could accomplish whatever its goal was when it began permutating (evolving).

The architecture passes capacity up the parental chain back to the original "idea" so that it could accomplish whatever its goal was when it began permutating (evolving).

The architecture passes capacity up the parental chain back to the original "idea" so that it could accomplish whatever its goal was when it began permutating (evolving).

The WAFT system spins up instances of "realities" where "beings" can learn "skills" in an evolutionary process then pass their "memories" back up the chain in the form of lessons learned, skills gained, and more.

Reality Types: Learning: Beings learn skills Testing: Beings test skills Evolution: Beings evolve through natural selection Research: Beings conduct research Creative: Beings create new things.

Features: Create realities with configurations Spawn beings into realities Manage reality lifecycle Extract lessons/skills/memories Pass memories upward.

Skill Types: Cognitive: Thinking, reasoning, analysis Creative: Creation, expression, innovation Social: Communication, collaboration Technical: Code, tools, systems Meta: Learning how to learn.

Purpose: Knowledge passing upward - the mechanism by which beings pass their "memories" back up the chain.

Memory Types: Lessons: What worked / didn't work (2.0 capacity) Skills: New abilities (3.0 capacity) Patterns: Recurring patterns (4.0 capacity) Insights: Deep understanding (5.0 capacity) Wisdom: Higher-level knowledge (10.0 capacity).

Features: Karma-based exchange List offerings Create offerings Purchase offerings Facilitate knowledge transfer.

Beings learn skills through experience: Learn reasoning skill (level increases) Learn new creative skill Learn lessons (what worked/didn't work) Record memories (patterns discovered).

When enough capacity accumulated, source accomplishes its original goal: "Understand evolution through permutation".

Lifetimes: Auto-registered with Source when purchased Realities: Auto-registered with Source when created Beings: Auto-registered with Source when spawned.

Lifetimes: Auto-contribute karma to Source when ended Realities: Auto-contribute memories to Source when ended Beings: Auto-contribute memories to Source when completed.

Additional Details

✅ 1. Reality created ✅ 2. Reality started ✅ 3. Being spawned ✅ 4. Being learned ✅ 5. Memories passed upward: 3 memories, 9.00 capacity ✅ 6. Source stats: 6 permutations, 98.10 capacity 🎉 Complete System Working!

Everything has a karmic price. Each lifetime is an investment in experience, and experiences generate karma for the next lifetime.

The WAFT system spins up instances of "realities" where "beings" can learn "skills" in an evolutionary process then pass their "memories" back up the chain in the form of lessons learned, skills gained, and more.

Multiple recap documents.

The karmic wager system creates engagement through risk/reward. WAFT bets karma on its own hypotheses, creating accountability and investment in outcomes.

Beings pass their "memories" back up the chain in the form of: Lessons learned Skills gained Patterns discovered Insights Wisdom.

✅ Realities - Spin up simulation environments ✅ Beings - Entities that learn and evolve ✅ Skills - Learned abilities that evolve ✅ Memory Flow - Knowledge passes upward ✅ Lifetime Exchange - Trading mechanism ✅ Source Integration - Everything connects to source ✅ Karma Economy - Complete economic loop ✅ Ancestral Chain - Capacity flows upward.

The WAFT system spins up instances of "realities" where "beings" can learn "skills" in an evolutionary process then pass their "memories" back up the chain in the form of lessons learned, skills gained, and more!

Date: 2026-01-11 Session: Building Complete Karma Economy Status: ✅ COMPLETE - All Systems Connected.

Philosophy: "Put your karma where your hypothesis is."

Lore: "Yama" - The god of death who collects souls and sends them to their next life.

Connection: This IS the Treasure Tavern! Same place, different name.

Architecture: Capacity flows upward through ancestral chain back to source.

Purpose: Spin up "realities" - simulation environments where beings can exist and learn.

Source creates a learning reality where beings can learn cognitive skills.

Status:  COMPLETE Version: 0.5.3 MVP Epic:  The complete system is built and working!
