

TELEPORT MASSIVE

Technical Memo: PDF Generation System

Date: 2026-01-13

Technical Memo

TM Number: TM-2026-001

Date: January 13, 2026

Subject: PDF Generation System Architecture

Classification: INTERNAL

Author: WAFT Engineering Team

1. Executive Summary

This memo documents the architecture and capabilities of the WAFT PDF generation system, including its evolutionary algorithms, template system, and styling framework.

2. System Architecture

Core Components

1. **ChatDistiller**

2. Extracts structured ideas from content
3. Ranks ideas by importance
4. Groups related concepts

5. **StylingGenome**

6. Evolutionary styling system
7. Preset configurations (clinical_standard, premium, professional)
8. Customizable genes (font, margin, color, layout)

9. **Template System**

10. WeasyPrint + Jinja2 based
11. Multiple template types (field_guide, lab_notes, etc.)
12. Printer-friendly conversion support

13. **PDF Generators**

14. PDFGenerator: Evolution-based generation
15. ScientificPDFGenerator: Research paper format

16. TwoPageGenerator: Constraint-based generation
 17. LaTeXGenerator: LaTeX document generation
-

3. Key Features

Adaptive Content Selection

The system can adapt content selection to meet page constraints (e.g., 2-page limit) while maintaining quality.

Multiple Styling Options

Three preset styles available:

- **clinical_standard**: Academic, professional
- **premium**: Elegant, sophisticated
- **professional**: Clean, readable

Template Library

15+ templates available for different document types:

- Field guides
- Lab notes
- Technical memos
- Personal memos
- Screenplays
- Storybooks
- And more...

4. Performance Metrics

- **Generation Time:** < 5 seconds per document (average)
 - **Quality Score:** 0.9+ (on 1.0 scale)
 - **Constraint Satisfaction:** 95%+ for page constraints
 - **Template Coverage:** 15+ document types
-

5. Recommendations

1. Continue expanding template library
 2. Add more styling presets
 3. Implement feedback loop for quality improvement
 4. Document best practices for each template type
-

6. Conclusion

The WAFT PDF generation system provides a robust, flexible solution for automated document generation with high quality and diverse formatting options.
