20 January 2026
Version 0.1

— Abstract —

Running notes for the Card-Game-Simulator full-cycle plan.

1 Goal

- Execute the full-cycle plan: clone, analyze, critique, respond, science-bitch, another-cycle, booklet, auto-work.

2 Context

- Work effort: WE-260120-4q9l
- Clone failed due to disk space; cleanup path selected.

3 Findings

- Clone attempt failed: “No space left on device”.

4 Decisions

- Proceed with disk audit and cleanup before retrying clone.

5 TODO

- Run read-only disk audit to identify large directories.
- Propose deletion candidates with backup verification.
- Retry clone after space is freed.

6 Next Steps

- Get approval to run disk audit commands.
- Document cleanup actions in work effort + devlog.

7 Logs

- 2026-01-20: Kickoff logged in devlog; work effort created.
- 2026-01-20: Clone failed due to disk space; cleanup path selected.
