

Team Standup Notes

Date: January 13, 2026

Time: 10:00 AM - 10:15 AM

Attendees: Alice, Bob, Charlie, Diana

What We Did Yesterday

Alice

-  Completed user authentication feature
-  Fixed bug in login flow
-  Started work on password reset

Bob

-  Refactored database queries for performance
-  Updated API documentation
-  Working on caching layer

Charlie

-  Deployed new version to staging
-  Fixed production bug (hotfix)
-  Monitoring performance metrics

Diana

-  Completed UI redesign for dashboard
-  Added accessibility features
-  Starting mobile responsive design

What We're Doing Today

Alice

- Continue password reset implementation
- Write tests for authentication flow

Bob

- Implement caching layer
- Performance testing

Charlie

- Monitor staging deployment
- Prepare production release notes

Diana

- Mobile responsive design
 - User testing session
-

Blockers

Alice

- ⚠️ Waiting on API design decision for password reset

Bob

- None

Charlie

- None

Diana

- None
-

Decisions Made

1. **Password Reset API:** Use token-based approach (agreed by team)
 2. **Caching Strategy:** Redis for session data, in-memory for static content
 3. **Release Schedule:** Target Friday for production release
-

Action Items

- ☐ Alice: Finalize password reset API design (due: EOD)
 - ☐ Bob: Set up Redis instance for caching (due: Tomorrow)
 - ☐ Charlie: Prepare release notes (due: Thursday)
 - ☐ Diana: Schedule user testing (due: This week)
-

Next Meeting

Date: January 14, 2026

Time: 10:00 AM

Focus: Review blockers and prepare for release
