OVERVIEW

Valdris was once a thriving city-state known for its advanced magical research and architectural marvels. The city was abandoned mysteriously over a thousand years ago, and now stands as a haunting reminder of a lost civilization.

HISTORY

Valdris was founded by the ancient Valdrian civilization, a people known for their mastery of both magic and engineering. The city served as a center of learning and trade for nearly two millennia before its sudden abandonment.

NOTABLE LOCATIONS

Key areas within the ruins include:

Notable Locations in Valdris

Location	Description	Danger Level
The Grand Library	Holds ancient tomes and magical texts	Medium
The Central Plaza	Meeting place, now overgrown	Low
The Mage Tower	Tallest structure, partially collapsed	High
The Catacombs	Underground burial chambers	Critical
The Market District	Former trading hub	Low

 CRITICAL

The catacombs are extremely dangerous. Multiple expeditions have been lost. Do not enter without proper preparation and backup.

CURRENT INHABITANTS

The ruins are now home to various creatures: undead guardians, wild beasts, and the occasional bandit camp. The deeper areas are said to be haunted by the spirits of the ancient Valdrians.
