

Image Generation Prompts for Card Art

Additional Content

Image Generation Prompts for Card Art

Background Images (Nano-Banana/Gemini)

New Orleans Jazz Club

New Orleans jazz club exterior at night, Mississippi River visible in background, neon lights reflecting on wet streets, atmospheric moody lighting, mystical atmosphere, cinematic composition, professional photography style, warm colors, depth of field, bokeh effects

Riverboat Casino

Mississippi River riverboat casino at sunset, New Orleans skyline in distance, golden hour lighting, steam rising from river, atmospheric, cinematic, professional photography, warm tones, dramatic sky

Back Alley Game

Dark back alley in New Orleans, single light source from window, card game in progress, mysterious atmosphere, film noir style, high contrast, dramatic shadows, cinematic composition

Character Art (Pixellab)

The River King - Pixel Art

Mysterious card dealer character, worn velvet jacket color of river mud, eyes that shift colors, hands moving fluidly, deck of cards, New Orleans style, pixel art, 8-directional views, mystical demi-god, gambling theme, atmospheric

Card Spirits - Pixel Art

Small pixel art spirits made of playing cards, floating, ethereal, New Orleans voodoo style, mystical, animated, 4-directional views

Integration Workflow

1. Generate background image
2. Generate character art
3. Create card composition (this system)
4. Composite all elements
5. Final mixed media artwork

Tools

- **Nano-Banana**: Photorealistic backgrounds
- **Pixellab**: Pixel art characters and sprites
- **Deckz Poker**: Card visualizations
- **Image Editor**: Compositing and layering
